

I would not be happy if my local KLOVE station would go off the air. (106.7) I listen to it all the time - day or night. I think it serves this community well with its outreach ministry to Christians. It is an encouragement to me as well as others in this community.

I think that the community would be at a loss if this station were to be displaced by an LPFM station which would provide other programming.

I think that the broadcasting by KLOVE is of public interest because this day and age it is hard to find a source of encouragement on the airwaves. It is also hard to find a station that you feel comfortable letting your kids listen to. This station is faith based. There are not many faith based stations out there. It is a source of encouragement for me, my family as well as others in my community. thank you.
